

PALLET TRUCK SCALE TPWN

POSITIVE
WEIGHING SOLUTIONS

TOP ENTRY LEVEL

- ▶ **TPWN** is the only entry-level pallet truck scale manufactured, calibrated and tested in Italy, equipped with high-end features and 0.2 kg resolution
- ▶ Each pallet truck is supplied with a test certificate, to guarantee the declared accuracy
- ▶ The innovative technology without a junction box allows for digital reading of each load cell, increasing **reliability** and reducing maintenance requirements

PALLET TRUCK SCALE **TPWN**

PRODUCTION LINE BASED IN FIORANO MODENESE

TPWN

UNBREAKABLE GLASS

MULTIPURPOSE INDICATOR

- ✓ Dini Argeo electronics and software
- ✓ Large backlit LCD display, with unbreakable and easy-to-clean glass
- ✓ Many functions available, such as tolerance control, piece counting and weight totalisation
- ✓ Power supply available via a rechargeable battery or AA batteries, for a long working autonomy
- ✓ Fully digital recalibration

CARE FOR
DETAILS

MANUFACTURED
IN **ITALY**

DINI ARGEO PALLET TRUCKS
ARE MADE IN ITALY
BY HIGHLY QUALIFIED STAFF.

DINI ARGEO, FOR OVER 100 YEARS IN THE WEIGHING FIELD, STANDS FOR QUALITY, EFFICIENCY AND RELIABILITY.

STURDY AND HANDY

The TPWN is the most handy PTS on the market, while maintaining a robust and rigid design. The steel and shockproof column ensures maximum protection of the weighing electronics from accidental impact.

DINI ARGEO LOAD CELLS

Weight acquisition is possible thanks to Dini Argeo's approved load cells. The high IP67 protection rating allows for use even the harshest of environments.

QUICK LIFTING

Gain greater efficiency within your warehouse thanks to the quick lifting pump: 3 movements are enough to weigh the pallet, thus allowing the operator to save time and energy.

EVER MORE STURDY

EVER MORE ACCURATE

TPWN pallet truck scales are designed specifically for those who are looking for a quality economic solution, but do not want to compromise the precision and reliability which **Dini Argeo** weighing systems provide.

TPWN is ideal to perform multiple tasks, including:

Weighing of handled pallets

Control of goods in and out of the warehouse

Optimisation of loading phases
